

Name _____

GRAPHS

⇒ Hailey and Kyla had a lemonade stand. They created a bar graph to count how many cups of lemonade they sold each day. Use the bar graph to answer the questions.

Cups of Lemonade Sold

1. On which day did they sell the most cups of lemonade? _____
2. On which day did they sell the least cups of lemonade? _____
3. On which two days did they sell the same number of cups of lemonade?

4. How many cups of lemonade did they sell on Tuesday? _____
5. How many cups of lemonade did they sell on Friday? _____
6. How many cups of lemonade did they sell altogether? _____
7. **How many more** cups of lemonade did they sell on Friday than on Thursday?
