

Name: _____

Cause and Effect Flowchart

The flowchart template consists of 10 identical rows. Each row is designed to capture a cause-and-effect relationship. At the top of each row is a large, empty rectangular box for the main effect. Below this box are two smaller, empty rectangular boxes, one on the left and one on the right, intended for specific causes. Lines connect the bottom corners of these two smaller boxes to a central point, from which a downward-pointing arrowhead extends to the bottom center of the large top box.
